

Data-Driven Lesson Plan Template

Data-Driven Lesson Plan Template

Teacher: _____

Date: _____

Subject/Grade: _____

Unit/Topic: _____

1. Learning Objective(s)

What will students know or be able to do by the end of this lesson?

- _____
- _____

Aligned Standard(s):

[Insert specific state, Common Core, or content standards]

2. Data Source(s) Used

What student data informed this lesson?

- ☐ Formative assessment results
- ☐ Exit tickets
- ☐ Benchmark/interim assessments
- ☐ Student work samples
- ☐ Behavior/attendance data

- ☐ Other: _____

Summary of Data Trends:

What does the data reveal about student understanding or gaps?

[Fillable area]

3. Groupings Based on Data

Group Type	Description	Strategy
Whole Class	General instruction focus	Direct instruction, modeling
Targeted Small Group	Students needing reteaching or extension	Small-group instruction, guided work
Individual Support	Students needing accommodations	Conferencing, scaffolds, supports

4. Instructional Strategies & Activities

Time	Activity	Purpose
	Do Now / Warm-Up	Activate prior knowledge
	Mini-Lesson / Modeling	Introduce or reteach concept
	Guided Practice	Practice with support
	Independent Practice	Assess understanding
	Exit Ticket / Formative Assessment	Monitor learning

5. ☐ Differentiation & Accommodations

Based on the data, how will instruction be adapted for different learners?

- _____
- _____

Supports for ELLs / Students with IEPs / Advanced Learners:
[Insert specifics based on student needs]

6. ☐ Assessment & Progress Monitoring

- **Formative Assessment Method(s):**

- ☐ Exit ticket
- ☐ Observation checklist
- ☐ Student work review
- ☐ Quick quiz
- ☐ Other: _____

How will this data inform next steps?
[Fillable space]

7. ☒ Reflection (Post-Lesson)

To be completed after instruction.

- What worked well based on student responses?
- What didn't go as planned?
- What new data did I gather?
- What will I adjust for next time?

[Fillable reflection space]
